

License agreement

By using the software, you agree to be bound by the terms of this license. If you have any questions about the terms below, please contact FlippyScripts.com for clarification.

All the Flippy products including Flippy LinkShare are allowed to use in unlimited domains for as long as you want. You are also allowed to sell the sites you made with Flippy products. You can call this “owned license” or “developer license”.

However you’re not allowed to sell the product its self (no resale rights). If you would like to earn money selling our products you can do so by joining our affiliate program.

Updates and support

When you buy a Flippy product you will receive free updates and support for one year. If you need support and upgrade more than one year, you can simply buy one of our service packages (this include free updates for the time period specified in the service package you brought from us)

Note: We do not provide support or upgrades for the sites you sell which include a Flippy product. When you sell sites that include our product or products, it is your responsibility to support them or supply them with upgrades.

01. Requirements

- MySQL (version 5 or higher)
- MySQLi extension
- PHP (Min: version 5 or higher, Rec: version 5.3 or higher)
- Apache Mod_Rewrite Enabled
- GD Image library

02. Installation

Installation is very simple. All you need to do is edit one PHP file and import the SQL dump. For upgrade please read Flippy LinkShare Upgrade Guide.

Step 1: Create a MySQL database and a MySQL user (with full permissions).

Step 2: Extract flippy_linkshare_2.1.0.zip file

Step 3: Open Flippy LinkShare\ftp\new installation\db.php with your favorite text editor.

Step 4: Edit your MySQL database information and save.

Step 5: Import/execute the SQL file located in Flippy LinkShare\database.

Step 6: Open Flippy LinkShare\ftp\new installation folder and upload the entire content to your web server.

That's it you done installing the script.

03. Changing Administrator Username and Password

Now that you're done with the installation it's time for you to change default username and password for the administrator control panel.

Step 1: Point your browser to <http://www.yoursite.ext/admincp>

Step 2: Login using default username: admin and default password: admin

Step 3: Navigate to "Administrator" tab using the navigation menu.

Step 4: Make the desired changes.

04. Site Settings

By using site settings you can add/update site settings.

Step 1: Navigate to “Settings” using navigation menu.

Step 2: Follow the steps below to configure your site.

- Website Title – Enter your website name here
- Website Logo – Upload your site logo here (Please use a .PNG file 150px x 60px)
- Website URL – Enter your website URL (Without "http://" and end "/")
- Meta Description – Add your website Meta description here.
- Meta Keywords – Add your website Meta keywords here.
- Email – Your email address where users can contact you. This will be used in your contact form and to send new passwords for password reset requests.
- Facebook App ID – See the next step (05) to learn how to setup your Facebook app ID
- Facebook Page URL – Your Facebook fan page URL
- Twitter URL – Your twitter URL
- Pinterest URL – Your Pinterest URL
- Google+ URL – Your Google+ URL

- Auto Approve Posts – If you like all the posts to automatically approve upon submission keep this setting "ON".
- Template – Chose website template.

The screenshot shows the 'Site Settings' page in the FLIPPYSCRIPTS Admin CP. The left sidebar contains a menu with options: Dashboard, Settings, Posts, Categories, Users, Comments, Administrator, Advertisements, Manage Pages, and View Site. The main content area is titled 'Site Settings' with a subtitle 'Update your website settings'. It contains several form fields for website configuration:

- Website Title:** A text input field with a placeholder 'Enter your site title here'.
- Website Logo (150px x 60px):** A text input field with a placeholder 'Enter your website title here' and a 'Select Website Logo' button.
- Website URL (Without "http://" and end "/"):** A text input field with a placeholder 'Enter your website title here'.
- Meta Description:** A text area with a placeholder 'Enter a meta description for your website'.
- Meta Keywords:** A text area with a placeholder 'Enter a meta keywords for your website'.
- Email Address:** A text input field with a placeholder 'Enter your website email address'.
- Facebook App ID:** A text input field with a placeholder 'Enter your facebook app id'.
- Facebook Page URL:** A text input field with a placeholder 'Facebook page url'.
- Twitter URL:** A text input field with a placeholder 'Twitter url'.
- Pinterest URL:** A text input field with a placeholder 'Pinterest URL'.
- Google+ URL:** A text input field with a placeholder 'Google+ URL'.
- Auto Approve Posts:** A dropdown menu with 'ON' selected.
- Template:** A dropdown menu with 'Default' selected.

An 'Update Site Settings' button is located at the bottom right of the form.

Important: Please make sure to add site URL without adding "http://" and without the end "/"

Correct way: Top level domain - `www.your-site.ext`

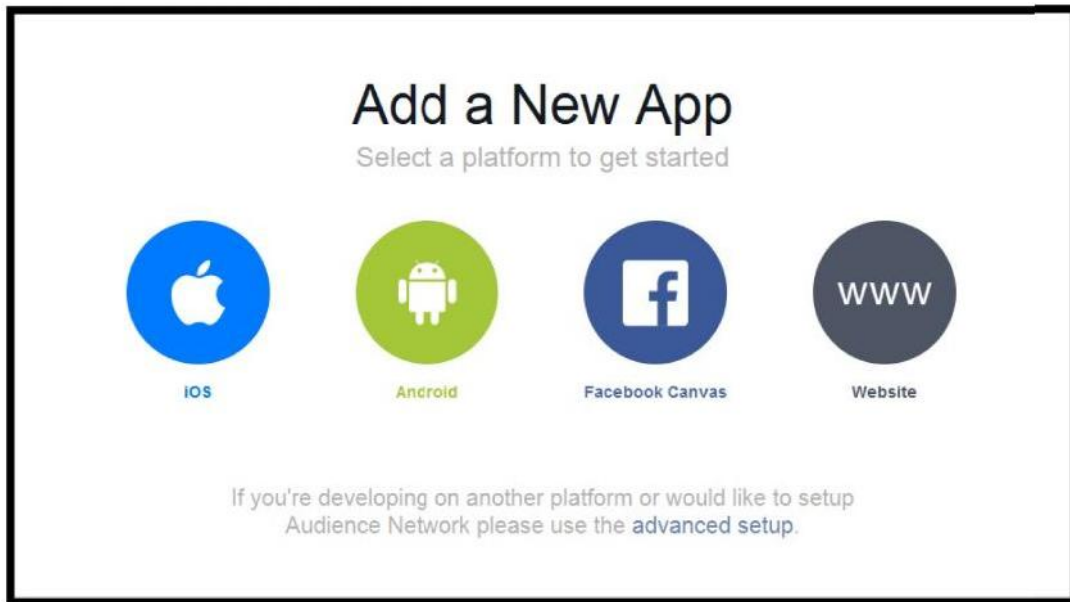

Correct way: Sub domain - `yoursubdomain.yoursite.ext`

05. Setting up Your Facebook App ID
